DEVELOPMENTAL BRAIN RESEARCH

Author Index

Altmann, L., Gutowski, M. and Wiegand, H.
Effects of maternal lead exposure on functional plasticity in the visual cortex and hippocampus of immature rats (81) 50
Ari, Y.B., see Gelot, A. (81) 240
Atkinson, J., see Panni, M.K. (81) 325

Balbi, D., see Villegas, R. (81) 26
Baraban, S.C. and Lothman, E.W.
Voltage-activated potassium currents in acutely dissociated hippocampal dentate gyrus neurons from neonatal rats (81) 309
Bazzy, A.R.
Developmental changes in rat diaphragm endplate response to repetitive stimulation (81) 314
Berbel, P., see Guadaño Ferraz, A. (81) 293
Bergström, A., see Szél, Á. (81) 1
Bonnin, A., De Miguel, R., Rodríguez-Manzaneque, J.C., Fernández-Ruiz, J.J., Santos, A. and Ramos, J.A.
Changes in tyrosine hydroxylase gene expression in mesencephalic catecholaminergic neurons of immature and adult male rats perinatally exposed to cannabinoids (81) 147
Bradford, H.F., see Zhou, J. (81) 318
Brouwer, N., see Copray, J.C.V.M. (81) 57

Caetano, H., see Richardson, B.S. (81) 10
Carmichael, L., see Richardson, B.S. (81) 10
Castillo, C., see Villegas, R. (81) 26
Cohan, C.S., see Williams, D.K. (81) 89
Copray, J.C.V.M., Mantingh-Otter, I.J. and Brouwer, N.
Expression of calcium-binding proteins in the neurotrophin-3-dependent subpopulation of rat embryonic dorsal root ganglion cells in culture (81) 57
Cynader, M., see Liu, Y. (81) 151

De Groat, W.C., see Vizzard, M.A. (81) 201
De Lecea, L., see Del Río, J.A. (81) 247
Del Río, J.A., De Lecea, L., Ferrer, I. and Soriano, E.
The development of parvalbumin-immunoreactivity in the neocortex of the mouse (81) 247
Delville, Y., Mansour, K.M., Quan, E.W., Yules, B.M. and Ferris, C.F.
Postnatal development of the vasopressinergic system in golden hamsters (81) 230
De Miguel, R., see Bonnin, A. (81) 147
De Venecia, R.K. and McMullen, N.T.
Single thalamocortical axons diverge to multiple patches in neonatal auditory cortex (81) 135
Dyck, R., see Liu, Y. (81) 151

Ehinger, B., see Szél, Á. (81) 1
Erdman, S.L., see Vizzard, M.A. (81) 201
Escobar del Rey, F., see Guadaño Ferraz, A. (81) 293
Eustache, I., Seyfritz, N. and Gueritaud, J.P.
Effects of insulin-like growth factors on organotypic cocultures of embryonic rat brainstem slices and skeletal muscle fibres (81) 284

Fernández-Ruiz, J.J., see Bonnin, A. (81) 147
Ferrer, I., see Del Río, J.A. (81) 247
Ferris, C.F., see Delville, Y. (81) 230
Förstermann, U., see Vizzard, M.A. (81) 201
Friedman, G.C. and Seeds, N.W.
Tissue plasminogen activator expression in the embryonic nervous system (81) 41
Fukui, Y., see Naruse, I. (81) 178

Gelot, A., Moreau, J., Khrestchatisky, M., Ari, Y.B. and Pollard, H.
Developmental change of α-spectrin mRNA in the rat brain (81) 240
Giuili, G., Luzi, A., Poyard, M. and Guellaën, G.
Expression of mouse brain soluble guanylyl cyclase and NO synthase during ontogeny (81) 269
Gottmann, K., Pfrieger, F.W. and Lux, H.D.
The formation of glutamatergic synapses in cultured central neurons: selective increase in miniature synaptic currents (81) 77
Greensmith, L., Mentis, G.Z. and Vrbová, G.
Blockade of *N*-methyl-D-aspartate receptors by MK-801 (dizocilpine maleate) rescues motoneurones in developing rats (81) 162
Guadaño Ferraz, A., Escobar del Rey, F., Morreale de Escobar, G., Innocenti, G.M. and Berbel, P.
The development of the anterior commissure in normal and hypothyroid rats (81) 293
Guellaën, G., see Giuili, G. (81) 269
Gueritaud, J.P., see Eustache, I. (81) 284
Gutowski, M., see Altmann, L. (81) 50

Hatanaka, H., see Nakamura, M. (81) 218
Heinrich, G., see Sandell, J.H. (81) 192
Homan, J., see Richardson, B.S. (81) 10
Hubank, M. and Mayne, L.
Expression of the excision repair gene, ERCC3 (excision repair cross-complementing), during mouse development (81) 66

Innocenti, G.M., see Guadaño Ferraz, A. (81) 293

Juliusson, B., see Szél, Á. (81) 1

Keino, H., see Naruse, I. (81) 178
Kent, C., see Smith-Thomas, L.C. (81) 171
Khrestchatisky, M., see Gelot, A. (81) 240
Kuhn, P.E., see Miller, M.W. (81) 260

Lhiaubet, A.M., see Scarcériaux, V. (81) 128
Litteria, M.
Long-term effects of neonatal ovariectomy on cerebellar development in the rat: a histological and morphometric study (81) 113
Liu, Y., Dyck, R. and Cynader, M.
The correlation between cortical neuron maturation and neurofilament phosphorylation: a developmental study of phosphorylated 200 kDa neurofilament protein in cat visual cortex (81) 151
Lothman, E.W., see Baraban, S.C. (81) 309
Lotto, R.B. and Price, D.J.
Evidence that molecules influencing axonal growth and termination in the developing geniculocortical pathway are conserved between divergent mammalian species (81) 17
Lund, R.D., see Panni, M.K. (81) 325
Lux, H.D., see Gottmann, K. (81) 77
Luzi, A., see Giuili, G. (81) 269

Mansour, K.M., see Delville, Y. (81) 230
Mantingh-Otter, I.J., see Copray, J.C.V.M. (81) 57
Mareš, P., see Mikolášová, R. (81) 105
Martin, S.C., see Sandell, J.H. (81) 192
Mayer, R.J., see Smith-Thomas, L.C. (81) 171
Mayne, L., see Hubank, M. (81) 66
McMullen, N.T., see De Venecia, R.K. (81) 135
Mentis, G.Z., see Greensmith, L. (81) 162
Mikolášová, R., Velíšek, L., Vorlíček, J. and Mareš, P.

Developmental changes of ketamine action against epileptic afterdischarges induced by hippocampal stimulation in rats (81) 105
Miller, M.W., Murtaugh, M. and Kuhn, P.E.
Developmental expression of a 56 kDa protein isolated from rat neocortex (81) 260
Moreau, J., see Gelot, A. (81) 240
Morreale de Escobar, G., see Guadaño Ferraz, A. (81) 293
Moshe, S.L., see Sircar, R. (81) 185
Murtaugh, M., see Miller, M.W. (81) 260

Nagy, T. and Reh, T.A.
Inhibition of retinal regeneration in larval *Rana* by an antibody directed against a laminin-heparan sulfate proteoglycan (81) 131
Nakamura, M., Nishio, C., Nonomura, T. and Hatanaka, H.
High potassium and cyclic AMP analog promote neuronal survival of basal forebrain cholinergic neurons in culture from postnatal 2-week-old rats (81) 218
Naruse, I., Fukui, Y., Keino, H. and Taniguchi, M.
The arrest of luteinizing hormone-releasing hormone neuronal migration in the genetic arhinencephalic mouse embryo (*Pdn / Pdn*) (81) 178
Nishio, C., see Nakamura, M. (81) 218
Nonomura, T., see Nakamura, M. (81) 218

Panni, M.K., Atkinson, J. and Lund, R.D.
Evidence for a tropic role of brain-derived neurotrophic factor in transplanted embryonic retinae (81) 325
Pélaprat, D., see Scarcériaux, V. (81) 128
Pfrieger, F.W., see Gottmann, K. (81) 77
Piernavieja, C., see Villegas, R. (81) 26
Pollard, H., see Gelot, A. (81) 240
Póo, M.E., see Villegas, R. (81) 26
Pousset, F.
Developmental expression of cytokine genes in the cortex and hippocampus of the rat central nervous system (81) 143
Poyard, M., see Giuili, G. (81) 269
Price, D.J., see Lotto, R.B. (81) 17

Quan, E.W., see Delville, Y. (81) 230

Ramos, J.A., see Bonnin, A. (81) 147
Reh, T.A., see Nagy, T. (81) 131
Richardson, B.S., Caetano, H., Homan, J. and Carmichael, L.
Regional brain blood flow in the ovine fetus during transition to the low-voltage electrocortical state (81) 10
Rodríguez-Manzaneque, J.C., see Bonnin, A. (81) 147
Rostène, W., see Scarcériaux, V. (81) 128

Sandell, J.H., Martin, S.C. and Heinrich, G.
The development of neurotrophin receptor Trk immunoreactivity in the retina of the zebrafish (*Brachydanio rerio*) (81) 192
Santos, A., see Bonnin, A. (81) 147
Scarcériaux, V., Pélaprat, D., Lhiaubet, A.M., Schimpff, R.M., Tramu, G. and Rostène, W.
Developmental pattern of neurotensin content in rat hypothalamic neurons cultured in serum-free medium: comparison with in vivo data (81) 128
Schimpff, R.M., see Scarcériaux, V. (81) 128
Schnell, S., see Villegas, R. (81) 26
Scotting, P.J., see Smith-Thomas, L.C. (81) 171
Seeds, N.W., see Friedman, G.C. (81) 41
Seyfritz, N., see Eustache, I. (81) 284
Sircar, R., Veliskova, J. and Moshe, S.L.
Chronic neonatal phencyclidine treatment produces age-related changes in pentylenetetrazol-induced seizures (81) 185
Smith-Thomas, L.C., Kent, C., Mayer, R.J. and Scotting, P.J.
Protein ubiquitination and neuronal differentiation in chick embryos (81) 171
Soriano, E., see Del Río, J.A. (81) 247
Stern, G.M., see Zhou, J. (81) 318
Szél, Á., Juliusson, B., Bergström, A., Wilke, K., Ehinger, B. and Van Veen, T.
Reversed ratio of color-specific cones in rabbit retinal cell transplants (81) 1

Takahashi, L.K.
Organizing action of corticosterone on the development of behavioral inhibition in the preweanling rat (81) 121
Taniguchi, M., see Naruse, I. (81) 178
Tramu, G., see Scarcériaux, V. (81) 128

Van Veen, T., see Szél, Á. (81) 1
Velíšek, L., see Mikolášová, R. (81) 105
Veliskova, J., see Sircar, R. (81) 185
Villegas, G.M., see Villegas, R. (81) 26
Villegas, R., Castillo, C., Póo, M.E., Schnell, S., Piernavieja, C., Balbi, D. and Villegas, G.M.
Expression of sodium channels with different saxitoxin affinity during rat forebrain development (81) 26
Vizzard, M.A., Erdman, S.L., Förstermann, U. and De Groat, W.C.
Ontogeny of nitric oxide synthase in the lumbosacral spinal cord of the neonatal rat (81) 201
Vorlíček, J., see Mikolášová, R. (81) 105
Vrbová, G., see Greensmith, L. (81) 162

Wiegand, H., see Altmann, L. (81) 50
Wilke, K., see Szél, Á. (81) 1
Williams, D.K. and Cohan, C.S.
The role of conditioning factors in the formation of growth cones and neurites from the axon stump after axotomy (81) 89

Yules, B.M., see Delville, Y. (81) 230

Zhou, J., Bradford, H.F. and Stern, G.M.
The stimulatory effect of brain-derived neurotrophic factor on dopaminergic phenotype expression of embryonic rat cortical neurons in vitro (81) 318
